Gender-inclusive community-led governance of Commons for improved ecological, social and economic outcomes

OPPORTUNITIES

Political commitment

Acts, policies & judicial pronouncement

Programme architecture

Funds available

SYSTEM BARRIERS

Siloed & scattered actors

Weak planning & implementation capacities

Poor narrative & inadequate political & policy support

Lack of accountability & compliance

ACTORS

Media

Political representatives

PRI & FRA institutions

Training institutions

Women & marginalised groups

Youth & local cadre

SHGs, FPOs, village collectives

NGOs, NGO networks

Think tanks, academia

Private sector

Legally mandated departments

SYSTEM OUTCOMES

S1. Platforms & coalitions enable inclusive planning & investment and influence policy

S2. Enhanced capacities for policy & programme implementation, with focus on women's roles & leadership

S3. Commons integrated in policies & programmes, influencing USD 1 billion investment for gender-equitable livelihood opportunities

S4. Data, information & legislative arrangements leveraged to make actors more responsible & accountable to communities

STRATEGIC ACTION AREAS

A1. Catalyse collaborative action

A2. Co-create public assets and leverage technology & government architecture to build capacities at scale

A3. Generate evidences and influence narratives, policy & programmes

A4. Institutionalise systems for social inclusion & accountability

PEOPLE LEVEL OUTCOMES

Secure rights to access, use & manage Commons

Voice, agency & power of communities to govern their Commons

Rural women & men benefit from 30-50% increase in incomes

Critical mass built to drive change & address systemic barriers
